

Exciting News

Mountain People's Health Councils, Inc.

is excited to announce their opening for

Behavioral Health Director

This individual will be responsible for overseeing the organization's growing behavioral health program including the integrated care and MAT programs. This position entails both clinical and administrative duties including brief assessment and intervention services in a primary care setting, program development, and program evaluation.

Nestled in the mountains of East Tennessee and minutes from the Big South Fork National River and Recreation Area, MPHIC is an FQHC with clinics serving five communities throughout Scott County, TN. MPHIC was recognized as one of the top community health centers in the country by the Department of Health & Human Services and is an NCQA recognized Patient-Centered Medical Home. MPHIC is listed with the National Health Service Corps (NHSC) and employees may be eligible for federal loan forgiveness/repayment programs.

Qualified individuals will have a doctoral degree in Clinical Psychology (PhD or PsyD) and hold a current license in their state of practice. Candidates with experience working in primary care and/or rural settings are strongly encouraged to apply.
