

Making Kids Better Is All We Do: UCSF Benioff Children's Hospitals are among the nation's finest pediatric medical centers, according to U.S. News & World Report's annual rankings. Their expertise covers virtually all pediatric conditions, including cancer, heart disease, neurological disorders, pulmonology, diabetes and endocrinology, as well as the care of critically ill newborns. The Oakland campus has a highly regarded pediatric residency program and is one of only five ACS Pediatric level I trauma centers in California.

Director, Behavioral Health #14937

Job Description:

The Director of Behavioral Health will manage the overall planning, development and implementation of behavioral health programs for UCSF Benioff Children's Hospital Oakland (BCH Oakland). The Director's role includes but is not limited to: strategic planning; business and program development; fiscal and contract management; personnel management; clinical integrity of service delivery; continuous quality improvement; customer and community relations and services; coordinating relationships between programs, medical center, physicians and community stakeholders. The Director reports to the Vice President of Ambulatory Services and matrix reports to the Vice President of Behavioral Health Services and partners with hospital leadership and community stakeholders to ensure we provide sustainable, high quality behavioral health programs that align with and support UCSF Benioff Children's Hospital strategic priorities.

Behavioral health care services at UCSF Benioff Children's Hospital Oakland emphasize a collaborative family centered approach and interface with all systems of care that serve children birth to 21. With \$22 million in services, grants, and contracts, our mental health and developmental services are provided in the hospital setting, local schools, community based settings and homes. We are committed to delivering culturally accountable, evidence based and trauma informed behavioral health care to the children in our community, including those with the highest risk and need, and those who are marginalized or underserved. Behavioral health care services encompass 17 service based programs and 135 multidisciplinary staff, with an aim to the premier behavioral health care institution for children in northern California, with proficiency in clinical care, training, research and evaluation and policy.
