Following the passage of the 2018 Farm Bill, the cannabidiol (CBD) industry has demonstrated remarkable growth and expansion across the United States. By 2025, it is anticipated to be a \$20 billion-plus industry. Given growing consumer interest, widespread advertisement and sale of CBD-based products and the unclear path forward for FDA regulation of these products, we are pleased to be convening the *CBD Summit*.

We anticipate a robust and insightful dialogue to touch on all aspects of the healthcare delivery system given the focus on the science, policy and regulation of the CBD industry. As such, we encourage participation from all public- and private-sector partners representing the perspectives of patients, caregivers, healthcare providers, employers, consumers, regulators and legislators.

Please note that space for this event is limited. Should there be any questions, please contact [Caroline Waldo](#) via email or at (202) 312-7410.

We hope you can make it!

Cheers!
